SUMMARY

Product executive who takes companies off legacy platforms and onto new ones, with experience across four different industries: 3D visualization for homebuilders, consumer and MSP security, healthcare/pharmacy, and developer tooling. Eleven years leading Product, UX, and Product Operations organizations, with a consistent pattern of 0→1 platform launches, platform consolidations, and retention turnarounds.

KEY HIGHLIGHTS

- **0→1 platform build, \$200M+ in year one:** Led the creation of a pharmacy platform that generated \$200M+ in actual annual revenue in its first year: actual revenue, not GMV or run-rate.
- **22-point retention turnaround:** Improved Gross Revenue Retention from ~65% to 87% across a \$50M–\$150M ARR portfolio, through a combination of onboarding/customer-success process redesign and targeted product reliability improvements.
- **Organizational leadership:** Built and led cross-functional Product, UX, and Product Operations organizations of 10–20+ people across three companies.
- **Platform specialist:** 0→1 builds and legacy-to-platform transformations at three of four employers, including MediaLab (whitelabel platform), Wellsync (0→1 platform plus consolidation), and ActiveState (company-wide transformation off legacy offerings).
- **Certifications:** PMP, PMI-ACP, and Certified Agile/Scrum Practitioner.

EXPERIENCE

ActiveState | Senior Director, Product | 2025–Present

- Lead the Product Management and UX organizations (team of 6 across both functions) through a company-wide transformation off legacy offerings onto an AI-driven product line.
- Introduced, socialized, and trained AI-enabled workflows across Product, Engineering, and GTM teams, changing how the organization plans and ships.
- Own roadmap strategy and cross-functional business alignment; built enablement programs that equipped Sales, Marketing, and Customer Success to sell and support the new platform.

Wellsync | Head of Product & Platform | 2024–2025

- Led the 0→1 build of a pharmacy platform that reached \$200M+ in actual annual revenue in its first year, owning the product and platform strategy behind that outcome.
- Directed Product Management, UX, and Product Operations (team of ~18 across all three functions) through a consolidation of multiple legacy products onto a single unified platform.
- Expanded the platform into new B2B2C and affiliate channels, opening revenue lines that did not exist prior to the consolidation.

Malwarebytes | Director, Product Strategy | 2021–2024

- Owned SMB, Enterprise, and MSP portfolios (~\$50M–\$150M ARR) and led the product + cross-functional team of 15 responsible for their strategy and growth.
- Drove Gross Revenue Retention from ~65% to 87%, a 22-point improvement, through a combination of onboarding/customer-success process redesign and targeted product reliability improvements.
- Led strategic planning, portfolio growth, and GTM execution across three customer segments with distinct buying motions, from self-serve SMB to managed-service-provider partnerships.

MediaLab 3D Solutions | Senior Product Manager | 2015–2021

- Led product strategy, roadmap planning, and cross-functional delivery for enterprise software solutions over six years.
- Built an award-winning 0→1 whitelabel platform that let homebuilders showcase complex media, including 3D tours, renderings, and video, across channels
- Partnered directly with Fortune 500 homebuilders, including Lennar and Toll Brothers, to help them adopt new visualization technologies and maximize go-to-market impact.
